

# MAKING ACCIDENTS DISAPPEAR

*An Electrical Safety Magic Show*

## Will Be At Our School

Date/Time:

Sponsored by The Electric Cooperatives of Arkansas and . . .

## Be safe! Make Accidents *Disappear!*

1. Just like a hammer or a saw, electricity is a tool. When handled foolishly, electricity can be dangerous and even deadly.
2. Never climb trees or fly kites near power-lines.
3. Never stick anything other than a plug into an electrical outlet.
4. Never use anything electric in or around the bathtub.
5. Never touch a wire of any kind that you find on the ground when you are playing outside. Instead, go find an adult and show it to them.
6. Don't plug in any electric cord that has become frayed or has exposed wires.
